THE - Diary of a 49'er

FROM THE BOOK EDITED BY C. L. CANFIELD

APRIL 30, 1851—Pard and I have got a couple of letters from home that are not pleasant. Father writes that mother's health is failing and advises me to quit and come home. Believes my being there would do her more good than any medicine. If I thought it was anything serious I would go, but while I am doing so well here it does not seem right to drop the chance to make a fortune. Anyway, I will wait until I get another letter. Henry North's death has been a great shock to his folks, but it would be worse if they knew the truth. Hetty wrote me the meanest kind of a letter, blaming me for not looking out for her brother, while it was a fact that I never knew where he was until I hunted him up in Sacramento. His murderer has not been captured. I guess nobody tried very hard, as it was a gambling row anyhow. Hetty throws me over, says she can't trust her happiness to me. That's like a woman, but I don't know but it's for the best and I am not taking her decision very much to heart.

After three weeks' rest, mining comes hard for a time, but we are both getting used to it again. We cleaned up the ground that Gleason and Fisk had sluiced off and took out fifty-four and one-half ounces. That more than pays our expenses for the trip.

MAY 11, 1851—Nevada is all built up again since the fire; better and more substantial than it was before. They have also built a Methodist church on the hill west of the town and have a regular preacher. It was pleasant to notice eight or ten women in the congregation. The Legislature made a new county and called it Nevada, and an election was held while we were gone to the Bay. Caswell was elected judge and Johnny Gallagher, sheriff, so that now we have a regular law outfit. Gallagher has appointed Anderson deputy for Rock Creek district and we have a peace officer here with legal

BE ALERT WHILE DRIVING

"Always be physically and mentally alert while driving," advises Bert Stewart, Jr., Public Safety Director for National Automobile Club. "A moment of inattention can cause an accident that will bring a lifetime of regret."

DRIVING CHECK HELPFUL

The service that a car requires is very often a definite key to the manner in which it is being operated, declare officials of National Automobile Club's Service Department. This is not a new idea but it is one that is lost to sight by many car owners much of the time. Because he had to have a new clutch plate installed recently a veteran motorist discovered he had been riding the clutch. He would not have believed it himself if he hadn't checked up.

WHEN DRIVING AT NIGHT

Many motorists prefer to do their long distance driving, or part of it, at night, state officials of National Automobile Club's Safety Department. The preference is based upon the fact that traffic is lighter and the glaring of sunlight is absent. While these assumptions are correct, several other aspects of the subject are worthy of consideration. One is that it is easier to fall asleep, doze or relax on a deserted road than on one where traffic presents a constant stimulus to wakefulness. Another fact to consider is that maximum driving speeds should be lower than in the daytime because of greatly reduced visibility.

The word "paper" comes from papyrus.

Veterans' News

Veterans are not required to pay attorneys or agents for representing them in monetary claims against the Veterans Administration.

Fees for such services are payable only by the Veterans Administration itself and are deducted from the monetary benefit due the veteran at the time the claim is allowed.

Fees are fixed by law at $10 for an original claim and $2 for a claim to obtain increased benefits.

Any agent or attorney who charges, or attempts to charge any veteran for such services is subject to penal provisions of the law in addition to loss of his accreditation.

* * *

Federal income tax returns are due March 15. Following are the U. S. Treasury's income tax requirements for veterans:

1. Veterans do not have to include in their 1947 income tax return, any pay for active service below the grade of commissioned officer received during 1947.

2. The first $1,500 received during 1947 for active service as a commissioned officer is also tax exempt.

3. Mustering-out pay is not taxable and need not be reported.

4. Contributions by the government to monthly family allowances including subsistence allowances for trainees under the G. I. Bill of Public Law 16, are tax free.

5. Pensions and disability compensation to war vetrans and their families are also excluded.

6. Disability retirement pay is tax free. However, retirement pay, other than disability retirement, is taxable and must be reported.

7. Interest on adjusted service bonds also goes tax free.

Veterans who want special help in preparing 1947 tax returns may get free assistance from U. S. Internal Revenue experts.

* * *

QUESTION: I was wounded in World War II. Is my compensation check subject to seizure by creditors?

ANSWER: No.

* * *

QUESTION: Have I any recourse to civil courts if I do not like the decision of Veterans Administration on my claim for compensation?

ANSWER: No.

* * *

QUESTION: My employer has dismissed me from my job-training position. What can I do so that I can continue to receive subsistence allowance?

ANSWER: Your training status was terminated and your subsistence allowance ceased when your employer dismissed you. It is now up to you to seek another place of employment with an approved on-the-job training program.

The Commonwealth of Australia was proclaimed on January 1, 1901.

TRUCKEE NAMED

Truckee, Nevada County, takes its name from "Captain Truckee," one of Fremont's faithful Indian guides, according to the National Automobile Club.

Bob's Garage

TUNE-UP
•
OVERHAULS

PATCH LIFE IS LIMITED

Blowout patches, like tires, have been improved, declare officials of National Automobile Club's Service Department. They will give considerably more mileage than their predecessors. The fact remains, however, that no matter how tough the patch may be, it cannot be expected to perform like the carcass of the tire.

Its nature is inevitably temporary and emergency. The tire that is so repaired may be carried as a spare but its service should be restricted to this capacity entirely —used only while the other tire is being repaired.

SAFETY RESOLUTION

Resolve to avoid accidents, urges the California State Automobile Association. Walk carefully and drive carefully. Live and let live.

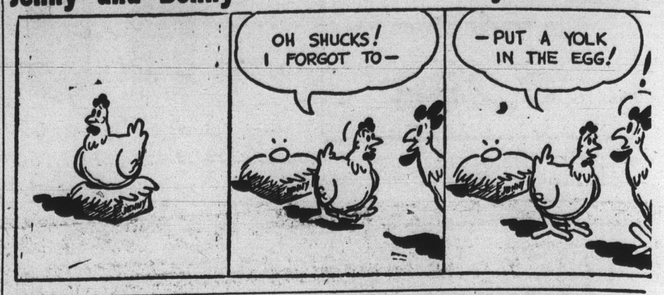
INSIST ON TEST RIDES

One of the most effective ways of seeing that the repair service one gets on the car is satisfactory is to take a ride with one of the shop's testing crew before and after the work is done, according to the Service Department of National Automobile Club. The first ride enables the car owner to get across his ideas of what is wrong. The second permits him to determine just how well it has been made right. More and more service establishments are coming around to this point of view.

PROPER LUBRICATION

Improper lubrication of bearing and bearing surfaces is responsible for many automobile breakdowns, according to the California State Automobile Association, which advises motorists to select a reliable lubricating service and have all lubricating done by that service, if possible.

Jenny and Benny by Art Winbur



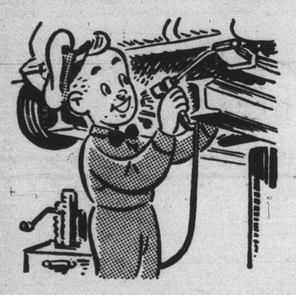
SHASTA DAM

Shasta Dam, located 13 miles north of Redding in Shasta County, ranks as the second largest concrete dam in the world, according to the National Automobile Club. Completed in 1944, it is 560 feet high, 3500 feet long, and 580 feet wide at the bottom.

HELP SAFETY PATROLS

Cooperation with School Safety Patrols is urged on drivers by the California State Automobile Association. Slow down in school zones, and come to a full stop when Patrol boys signal that children are crossing or about to cross.

Prevent wear by *regular* lubrication



Every car, new or old, demands a complete lube job every 1000 miles, watch that speedometer reading, fella! You'll be repaid in smoother driving and all-around better performance. Thoroughly experienced lube men and top quality oils at ... Haddy's Shell Station.

(Continued from Page 1)

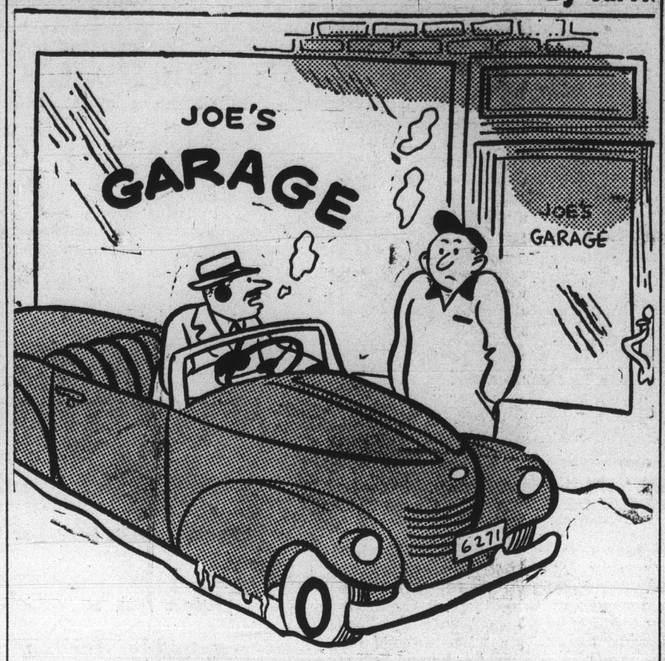
authority. If we get along as peacefully as for the past year, Pard won't be very busy.

Showed Pard Hetty's letter and he said, "Give her time; she don't mean it." He seemed to think I was not worried over it, which is true. I have got nothing to blame myself for and why should I let her play see-saw with me. I answered her letter and told her she was the best judge, and, although she had been unjust, it was for her to decide. Pard don't know how matters stand between me and my French sweetheart. I have not told him that she wanted me to marry and go back to France with her and I was almost persuaded to do it, and that she finally decided to make a visit to her home and come back in the fall and then we should come to some agreement. I believe I would have made the jump had it not been for fear of what my folks would say, and now I am half sorry that I did not go. She wrote me just before she left on the steamer, but it is in French and I can't read a word of it and am ashamed to ask Pard to translate it.

MAY 18, 1851—We put in a steady week's work and got forty-one and three-quarters ounces. It's like drawing money out of a bank and we have three months more ahead of us if it all pays. The bedrock is nearly level, but rises up on both sides of the flat and there is no gravel on the hill. The water has gone down in Deer Creek and the miners are getting back into the bed, but it was pretty well worked out last year and isn't paying very well. The best diggings are up on Nigger Hill and Manzanita Flat, and there is another place called Gold Run and a flat at the head of it that is rich. Amos Laird and Co. have most of the flat, and I heard that for the past month they have been taking out on an average of one thousand dollars per day. There are three or four companies on the head of Brush Creek that are doing well. They are working ground that is from thirty to fifty feet deep, coyoting and drifting. Kellogg is blasting out a rock cut fifteen or twenty feet through the solid granite to drain the channel. He and his partner have taken out over seventy thousand dollars in the past year. Good diggings have also been found on Shady Creek and Badger Hill, and there are four or five hundred miners working in that vicinity. It seems as if there was no end to it; we hear of strikes every day and in every direction and we are sometimes tempted to go prospecting, but our claim is too good to quit just yet. The miners generally agree that one should be content with ounce diggings.

(To be continued)

INKLINGS By Jarvis



How long would it take you to install a heater in this car?

FUEL WASTED

A weak automobile battery causes slow starting and wasted fuel, warns the California State Automobile Association.

WEIGHT AFFECTS PERFORMANCE

One of the factors in car performance on a long motor trip often ignored in spite of its importance is that the average automobile carries a greater burden than it normally is called upon to bear, declare officials of National Automobile Club's Service Department. Forgetting this fact, many are inclined to think the performance is off sufficiently to warrant minor adjustments that still further affect the car's output of power, speed, and comfort. The weight carried makes a big difference.

PARKING ON GRADES

"Parking on grades calls for extra precautions," warns Bert Stewart, Jr., Director of Public Safety for National Automobile Club. "Motorists should be sure that their brakes are securely set, and should always cramp their wheels in against the curb."

MOTOR VEHICLES

Final figures for America's 1947 motor vehicle production showed total factory sales of 4,797,656 units, reports National Automobile Club. Of this total, 3,558,178 were passenger cars, 1,220,634 trucks and 18,838 motor coaches.

MONO LAKE

Mono Lake, Mono County, is known as the "Dead Sea of America," reports National Automobile Club. With no perceptible outlet, its water is about the same density as the sea and contains 3½ per cent of solids.

Large aprons of deposited material which spread out in fanlike forms found at the base of many steep slopes are called alluvial fans.

San Francisco's 200-foot wide Embarcadero was laid out in 1878.

Banana Cup Cakes

Sliced bananas show off their good looks in these tempting banana cup cakes made with enriched flour for better food value.

Fruit variety is limited at this season so let's find different ways for using the "dependables" on the market. There are more ways than one to eat bananas. For proof, we offer these cup cakes with a real banana flavor, their fluffy frosting decked with two slices of the fruit.

The cup cakes are made by the usual cake method, with the flour mixture added to the creamed mixture alternately with mashed bananas and milk. Measure ingredients carefully, sifting flour once before measuring. Preserve the golden yellow of the cut bananas in the topping by dipping them in lemon or other citrus juice.

Besides good eating, the cup cakes boast of good food value supplied by the enriched flour with its protein, iron, and B-vitamins. The recipe makes a sufficient quantity to serve at a casual afternoon tea or for after-school snack and dinner dessert.

BANANA CUP CAKES

2 cups sifted enriched flour
2 teaspoons baking powder
¼ teaspoon soda
½ teaspoon salt
½ cup shortening
1 cup sugar
2 eggs, beaten
1 teaspoon grated orange rind
1 teaspoon grated lemon rind
1 teaspoon vanilla extract
1 cup mashed bananas
2 tablespoons milk
½ cup chopped nuts

Sift together flour, baking powder, soda and salt. Cream together shortening and sugar until light and fluffy. Add eggs, mixing well. Add orange rind, lemon rind and vanilla extract. Add flour mixture to creamed mixture alternately with bananas and milk. Fold in nuts. Fill greased three-inch muffin pans two-thirds full. Bake in moderate oven (350 degrees F.) about 25 minutes. Yields About 14 three-inch cup cakes.
